Personal Profile

A motivated Cyber Security graduate with proven leadership and service excellence, demonstrated through a promotion to Customer Service Supervisor at Coles Supermarket after two years of part-time work. Skilled in team supervision, risk management and service continuity under pressure. Strong academic foundation in Digital Forensics, Applied Cryptography and Data Privacy, complemented by hand-on experience with Microsoft 365, Azure and data security tools. Recognised for reliability, integrity, strong interpersonal skills and teamwork skills developed through customer facing roles in fast-paced environments.

Work Experiences

1. Customer Service Supervisor – Part time

Company: Coles Supermarket Macquarie Centre, Sydney, Australia

April 2024 - present

- Supervise and support a team of 10+ service assistants to ensure smooth daily operations and compliance with Coles' service standards.
- Manage cash reconciliation, incident reporting, and compliance with workplace safety and data handling policies.
- Deliver training and on-the-job coaching to new team members, improving checkout accuracy and service efficiency.
- Collaborate with management on rostering and customer service improvement initiatives, contributing to a 15% reduction in customer queue times.

2. Customer Service Team Member – Part time

Company: Coles Supermarket Macquarie Centre, Sydney, Australia

August 2022 – March 2024

- Managed financial compliance and risk at point-of-sale, processing 500+ daily transactions with 99.8% accuracy in cash and payment handling.
- Improved process efficiency by analysing customer flow and directing 100+ customers per shift to self-checkout, contributing to a ~15% reduction in queue times.
- Acted as first-level support, troubleshooting and resolving payment issues and customer inquiries in a high-volume environment.

3. Logistics and Administrative Assistant – Part time

Company: Mona Boutique, Jakarta, Indonesia

November 2018 – July 2022

- Analysed and administered sales/purchasing data in Advanced Excel, creating yearly summary reports to track business performance and identify financial trends.
- Managed e-commerce logistics, including daily distribution of 50+ packages and all related administrative tasks.

Certification

ITIL 4 Foundation – In Progress (started in Oct 2025)

Education

1. Bachelor of Cyber Security – Macquarie University, Sydney, Australia

July 2023 – July 2025

- Weighted Average Mark (WAM): 76.13
- Key Coursework: Offensive Security (HD, 88), Digital Forensics (HD, 93), Applied Cryptography (D, 78), Data Privacy and Information Security (D, 75).

2. Diploma of Information Technology – Macquarie University, Sydney, Australia

July 2022 – May 2023

- Weighted Average Mark (WAM): 78.75
- Key Coursework: Introduction to Computer Programming (HD, 87), Introduction to Database Design and Management (HD, 86), Introduction to Cyber Security (HD, 85).

Internship

1. Data Privacy & Security Research Internship

Macquarie University School of Computing, Sydney, Australia

February 2025 – July 2025

- Developed and implemented a baseline Extreme Gradient Boosting (XGBoost) model for raw text data linkage, achieving 91.3% accuracy and a 0.9118 F1 Score.
- Engineered a privacy-preserving solution using Local Differential Privacy (LDP), maintaining a high F1 Score of 0.896.
- Analysed the privacy-utility trade-off, demonstrating that the LDP model incurred only a minor ~1.7% performance reduction while significantly enhancing data privacy.

Technical Skills

- Programming Languages: Python, Dart, SQL, HTML/CSS, JavaScript
- Tools & Platforms: Microsoft Azure, AWS (basic), Microsoft 365, Microsoft Intune, ServiceNow, Microsoft Office, Flutter, Firebase, Git, VSCode
- Data & ML: XGBoost, Excel (Advanced, incl. summary reports)

Key Competencies

1. Cyber Governance & Compliance – ISO 27001, NIST, Essential Eight, NIST CSF, SOC 2 (Familiar)
2. Risk & Privacy Management – Data Privacy Principles, Local Differential Privacy (LDP), Privacy-Utility Trade-off Analysis, Risk Documentation
3. Cloud & Identity Security – Microsoft Azure, Entra ID Identity and Access Management (IAM), Conditional Access, Multi-Factor Authentication (MFA)
4. Security & Forensics – Digital Forensics (HD, 93), Incident Response (IR), Risk Assessment, Applied Cryptography (D, 78)
5. Data Handling & Reporting – Compliance Registers, Excel Dashboards, Stakeholder Documentation
6. IT Service Management – Incident Management, ITIL Principles, Service Delivery Support

Soft Skills

- Strong Interpersonal and communication abilities
- Effective Time Management skills developed through balancing work and academics
- Collaborative team player
- Proven work ethic and ability to work under pressure
- Customer service orientation
