

STEVEN FILBERT

IT Service Desk & Technical Support | Professional Year (ACS) | AZ-900 | MS-900

0493 530 098 | steven7f@gmail.com | [LinkedIn](#) | [GitHub](#) | Haymarket, NSW

PROFESSIONAL PROFILE

Driven by a genuine passion for technology and helping people, I am an IT support professional completing an ACS-recognised IT Professional Year, with Microsoft AZ-900 and MS-900 certifications and a Cyber Security degree. I bring hands-on experience with ServiceNow ticketing and ITIL workflows through a self-built service desk lab, plus foundational Windows, Microsoft 365, and networking knowledge. Backed by 3+ years of high-volume customer-facing experience and a Living Service Hero award, I am a calm, clear communicator who explains technical issues plainly and is ready to deliver first-line support.

TECHNICAL SKILLS

- **Service Desk & ITIL:** Hands-on ServiceNow lab (incident, service request, escalation, KB authoring), incident and service request management, prioritisation, escalation, knowledge base authoring
- **Windows & Microsoft 365:** Windows 10/11 and Microsoft 365 support fundamentals; account and access basics
- **Cloud & Microsoft:** Azure (AZ-900) and Microsoft 365 (MS-900) certified
- **Networking (foundational):** TCP/IP, DNS, DHCP, VLANs; Wireshark basics
- **Systems & Scripting (foundational):** Linux (Ubuntu, Debian); Python
- **Security foundation:** Cyber Security degree with detection lab work (Splunk, Windows event logs); useful for security-aware support

CORE STRENGTHS

- **Calm under pressure:** sustained 95–100% service KPIs across 3+ years in a high-volume, fast-paced environment
- **Clear communicator:** explains technical issues plainly to non-technical users and escalates effectively
- **Self-directed learner:** independently completed AZ-900 and MS-900 alongside full-time work and study
- **Reliable & accurate:** trusted with cash reconciliation and \$10,000+ daily transactions; promoted within ~20 months

WORK EXPERIENCE

Customer Service Supervisor

Coles Supermarkets, Macquarie Centre, Sydney

Apr 2024 – Present

- Act as first point of contact for front-end issues across 100–150+ customers per shift; resolve everyday register and self-checkout problems such as restarts and receipt rolls, and escalate hardware or technical faults to IT or management
- Train and onboard 10+ team members on systems, transaction handling, and escalation procedures, explaining processes clearly to non-technical staff
- Reconcile cash and manage daily transactions exceeding \$10,000 with high accuracy under time pressure
- Maintained 95–100% service KPIs across 3+ years; received the Living Service Hero award; promoted from Team Member within ~20 months

Customer Service Team Member

Coles Supermarkets, Macquarie Centre, Sydney

Aug 2022 – Mar 2024

- Processed high-volume transactions and resolved customer issues as first point of contact; recognised multiple times as Team Member of the Day

NOTABLE PROJECTS

ServiceNow ITIL Service Desk Lab

Self-Directed Home Lab

Jul 2026

github.com/vennfilbert/servicenow-service-desk-lab

- Tech: ServiceNow (developer instance), ITIL incident and service request workflows, knowledge base
- Objective: Practise end-to-end L1 service desk handling in a realistic ITSM environment.
- Duties: Worked seven tickets end to end: logging, categorising, setting impact and urgency, adding work notes, and resolving with proper resolution codes; escalated a VPN incident and a Priority 1 major incident to the correct team.
- Result: Wrote six knowledge base articles for common L1 tasks and documented the full build with screenshots in a public GitHub repo.

Kerberoasting Detection Lab (Splunk)

Self-Directed Home Lab

Jun 2026

github.com/vennfilbert/kerberoasting-detection-lab

- Tech: Splunk, SPL (rex, stats), Windows Security event logs
- Objective: Detect a Kerberoasting attack hidden within a high volume of Windows log events using a SIEM.
- Duties: Ingested and analysed 160 Windows log events, practising log ingestion, searching, and field extraction.
- Result: Isolated the attack and documented the full process in a public GitHub write-up; reinforced a methodical, well-documented approach to troubleshooting.

Privacy-Preserving Record Linkage Platform (Research Internship)

Macquarie University, School of Computing

Feb – Jul 2025

github.com/vennfilbert/securelink-project

- Tech: Python, XGBoost, Pandas, Scikit-learn, React
- Objective: Match records accurately without exposing personal data.
- Duties: Built a data-matching pipeline and integrated the model into a React dashboard; ran 30+ experiments and produced technical documentation for supervisors.
- Result: Delivered a baseline F1 of approximately 0.91, with only about 1.7% F1 reduction when Local Differential Privacy was applied; awarded Distinction.

CERTIFICATIONS & TRAINING

- **Microsoft Azure Fundamentals (AZ-900)** – Nov 2025
- **Microsoft 365 Fundamentals (MS-900)** – Jan 2026

PROFESSIONAL DEVELOPMENT

IT Professional Year (ACS-recognised, IT Help Desk stream)

Performance Education

Mar 2026 – Present

- Professional Meetings and Presentations: leading and contributing to workplace meetings and presenting ideas clearly to different audiences
- Australian Business Culture: workplace expectations, professional etiquette, and effective collaboration within local teams
- Australian Workplace Environment: workplace rights, responsibilities, health and safety, and professional conduct in Australian IT roles
- Professional Workplace Writing: clear, professional written communication including emails, documentation, and reports

EDUCATION

Bachelor of Cyber Security (WAM 76.13)

Macquarie University, Sydney

Jul 2023 – Jul 2025

- High Distinctions in Offensive Security (88) and Digital Forensics (93)

Diploma of Information Technology (WAM 78.75)

Macquarie University, Sydney

Jul 2022 – May 2023
